

Computer Technology

Program Overview

Thank you for your interest in Greenville Technical College and our computer technology programs. Our students seeking an Associate in Applied Science Degree in Computer Technology have the option of three concentrations: Programming, Network Administration or Systems Administration.

Students with strong technical and communications skills can expect to find jobs that provide good salaries and career advancement opportunities. Government statistics project strong growth for computer related professions and student placement for graduates has been good.

It would be a pleasure to meet with you, show you our facilities, discuss your educational plans, and answer any questions you may have about our programs. Please contact me if you have questions or would like to set up an appointment. I look forward to hearing from you and discussing your career in computer technology.

Sincerely,

Beau Sanders
Program Coordinator
Computer Technology
